TDS Fiber Network Project

The Village was recently notified by TDS that work to complete the fiber network in Allouez will resume this fall and will continue through the end of next year. The TDS fiber project that started in 2022 was postponed at the end of 2023. By the end of 2023, TDS had placed fiber throughout the south half of Allouez and north of Hwy 172 west of Libal Street to approximately Allouez Ave. In total roughly 40 miles of TDS fiber has been placed to date.

Attached is a map showing the remaining TDS digital fiber (area in pink) networks to be built. TDS estimates another 40 miles of Fiber to be placed.

A meeting was held with TDS on August 21st. The following topics were discussed:

- Escrow Account Balance – For payment of project expenses.
- Overall Project Schedule
- Project Contacts
- Property Owner Notification Expectations
- Avoidance of Public Utilities and precautionary measures
- Locating Services
    - Storm Laterals
- Inspection
- Landscape Restoration

The installation of fiber to begin as soon as the middle of September. TDS will be notifying impacted residents ahead of construction.
