

November 18, 2025 (Plan Commission Meeting)

**PLAN COMMISSION MEETING
TUESDAY, NOVEMBER 18, 2025
5:30 PM, ALLOUEZ VILLAGE HALL**

CALL TO ORDER/ROLL CALL

Lefebvre called the meeting to order at 5:30 p.m.

Present: Brunmeier, Lefebvre, Marsch, Ostrenga-Ruffell, Robillard, Van Remortel
Excused: Capichano-Simmons
Also Present: Fuller, March

MODIFY/ADOPT AGENDA

Marsch / Van Remortel moved to adopt the agenda as presented. Motion carried.

MODIFY / ADOPT MINUTES

A. Minutes dated July 15, 2025

Ostrenga-Ruffell / Van Remortel moved to approve the minutes dated July 15, 2025, as presented and placed on file. Motion carried.

B. Minutes dated September 29, 2025

Van Remortel / Ostrenga-Ruffell moved to approve the minutes dated September 29, 2025, as presented and placed on file. Motion carried.

ANNOUNCEMENTS

- None

PUBLIC APPEARANCES

- None

PRESENTATION BY COMMUNITY ADVOCATE, MEGAN DARLING – RIVERSIDE DRIVE
CORRIDOR: SAFE ACCESS TO THE FOX RIVER TRAIL

Megan Darling, 221 Arbor Lane

- Participated in the Green Bay Transportation Academy that provides students with the fundamentals of local transportation information, planning, and provides the skills to advocate for themselves and their communities.
- The Riverside Drive Corridor is four-lane state arterial road separating neighborhoods from the Fox River Trail. There are two safe crossings over a three-mile area.
- Since the opening of the trail in 2001 it has become one of the most popular and heavily used trails in the State of Wisconsin.

November 18, 2025 (Plan Commission Meeting)

- With it being one of the most popular trails there is not a safe connection between neighborhoods and the trail. Riverside Drive is designed to encourage speeding even though the speed limit is 35mph.
- Community is needing safe access to trail, continuous sidewalks, and have the Village be more walking and biking friendly.
- Offered different suggestions in order to accommodate and accomplish.

Discussion:

- A meeting with WisDOT would be the best place to start.
- Any sidewalks or changes to Riverside would come out of the Village budget due to the State Hwy holding up better than they thought.
- State controlled roadways are very difficult to lower the speed limit.
- What can Allouez do to make changes to Riverside Drive? Walkways can be added, but the DOT would need to give final approval.
- Around 98.5% of Allouez residents live east of Riverside Drive. Only 1.5% of the Allouez population does not have to cross Riverside Drive to utilize the trail.
- A three-lane configuration on Riverside Drive is possible, and it only takes some paint and convincing WisDOT that it is the smart move. This can improve road crossing conditions including adding a pedestrian island.
- Brown County Planning and Land Services did a study in 2004 of potential crossings on Riverside Drive. The railroad trestle bridge was identified as a potentially low-cost solution if that railroad ever goes away.
- Some of the other issues are once you get people safely across Riverside Drive, how do you get them onto the trail without going onto private property?
- WisDOT did design an intersection at Allouez Avenue, but the Village would have to pay for it.
- A DNR controlled tunnel currently goes under the road near Lazarre on Riverside Drive in Heritage Hill Park. It would present a challenge because the DNR utilizes it to get to the other half of their park on the other side of the road.
- The Village obtained a grant to install a trail and controlled crossing on the north side of STH172 a few years ago.
- Possibly changing the designation of the road from a state trunk highway to a state connecting highway. The difference would be local control, to maintain a state connecting highway the Village would receive funds to plow the road, annual maintenance, and that is calculated on a cost per mile basis. Would also allow the Village input on the road conversations.
- In 2019, a St. Norbert's student reached out to the Village and wanted to conduct a survey on the Fox River Trail. Staff provided the Plan Commission with a presentation at the time with the results of the survey which were about the best practices and best locations for crossings.

DISCUSSION RE: CONTINUING EDUCATION TOPICS FOR PLANNING

- To be moved to the next meeting due to time constraints.

REPORT RE: COMMUNITY DEVELOPMENT AUTHORITY FORMATION

- To be moved to the next meeting due to time constraints.

November 18, 2025 (Plan Commission Meeting)

REPORT RE: ANNUAL TAX INCREMENTAL DISTRICT REPORT

- The Joint Review Board met and approved the report by resolution.
- The TID is scheduled to close in 2039. It can close earlier if we are at a breakeven point with no infrastructure projects in mind. It could close in 2028. A lot of the projects could be funded using TID funds. Projected revenues through the closure of the TID are around \$29 million. Current expected expenditure is \$14 million.

ADJOURNMENT

Ostrenga-Ruffell / Van Remortel moved to adjourn at 6:30 p.m. Motion carried.

Minutes submitted by Kim Siudzinski, Deputy Clerk.
