

AGENDA
PUBLIC WORKS COMMITTEE MEETING
Tuesday, February 3rd, 2026 at 5:30 p.m.
Allouez Village Hall, 1900 Libal Street

1. CALL TO ORDER/ ROLL CALL
2. MODIFY/ADOPT AGENDA
3. APPROVAL OF DECEMBER 10TH, 2025 MINUTES
 - a. Joint Public Works/Parks, Recreation & Forestry Committee Minutes 12/10/25
 - b. Public Works Committee Minutes 12/10/25
4. ANNOUNCEMENTS
5. PUBLIC APPEARANCES

NEW BUSINESS:

6. DISCUSSION/ACTION RE: RESERVOIR ROOF AND OUTFALL IMPROVEMENT PROJECT BID RESULTS
7. DISCUSSION/ACTION RE: UPDATED 5-YR CAPITAL IMPROVEMENT PLAN
8. DISCUSSION/ACTION RE: 2026 STREET RESURFACING PROJECT
9. DISCUSSION/ACTION RE: LIBAL ST. (LEBRUN ST. TO HOFFMAN RD) TYPICAL SECTION
10. DISCUSSION/ACTION RE: PUBLIC WORKS DEPARTMENT EQUIPMENT PURCHASES
 - a. Street Sweeper
 - b. 61" Ribbon Snow Blower (Street)
 - c. Shop Pick-Up Truck
 - d. Staff Engineer Pick-Up Truck
 - e. Water Dept Pick-Up Truck
11. FUTURE AGENDA ITEMS
12. ADJOURNMENT

NOTE: It is possible that members of and a possible quorum of members of other governmental bodies of the municipality may be in attendance at the above noticed meeting to gather information; no action will be taken by any governmental body at the above noticed meeting other than the governmental body specifically referred to above in this notice.

**JOINT PUBLIC WORKS / PARKS, RECREATION, & FORESTRY COMMITTEE MEETING MINUTES
WEDNESDAY, DECEMBER 10TH, 2025 at 5:30PM
ALLOUEZ VILLAGE HALL, 1900 LIBAL STREET**

CALL TO ORDER / ROLL CALL

C. Leiterman called the meeting to order at 5:35pm

Public Works Committee Members Present: Genrich, Lefebvre, C. Leiterman

Excused: Collison, Beyler

Parks, Recreation, & Forestry Committee Members Present: K. Leiterman, Faller, Mathwig, Seidl, Schmidt, Atwood
Also present: Gehin, Clark, March, and Nick Vande Hey (McMahon Associates)

MODIFY/ADOPT AGENDA

Genrich/Atwood moved to adopt the agenda as presented. Motion carried.

RIVERVIEW PARK STORMWATER POND

Gehin provided an overview of the project and previous meetings that have taken place.

- The Riverview Park stormwater pond is a regional wet pond that would accommodate the needs of potential future developments within this pond watershed.

Nick Vande Hey, McMahon Associates

- Provided a presentation on the most recent options for the Riverview Park stormwater pond.
- Gave an explanation of the Riverview Pond drainage basin boundary and reviewed the following information:
 - o Village's overall stormwater plan of action for existing and proposed stormwater best management practices in use and planned for in the future to meet stormwater quality regulations.
 - o Various components making up a typical wet pond cross section (i.e. permanent pool, safety shelf and planted side slopes).
 - o Pond Options 1, 2, 3 and 4A along with associated pros and cons for each option.
 - o Public meetings that have been held along with public comments that were received.
 - o Additional pond amenities that could be added including water aeration devices or fencing.
 - o Probable costs
 - o Discussed options with potential grant funding & tentative project schedule

Chris Linskens, Wisconsin Department of Natural Resources

- Discussed the timing and availability of possible grant funding through the Wisconsin DNR for this project.
- Explained how the Village is well on its way to meeting stormwater requirements and how they are fortunate to have public lands to construct infrastructure.

Discussion:

- What type of development could happen at the Langlade School property? Unknown at this time.
- The price of residential lots next to ponds tends to be higher and more in demand.
- Are there stipulations attached to WDNR grants? None that are known.
- Pond Option 1 costs are considerably less than other options.
- Are there any park development plans for the area where Pond Option 1 is located? Nothing in any plans.
- Ability to alleviate flooding concerns.
- This project would get the Village close to meeting the stormwater management requirement for the East River watershed.
- Pond Option 4A would require the relocation of a softball field.
- Pond Option 1 would be the easiest to construct of all options.
- All pond options are close to the same size in surface area.
- Are there liability concerns with stormwater ponds?

Gehin

- Previous joint committee meeting in December 2023 recommended Option 4 to the Village Board. The Village Board tabled the item in February 2024.

March

- Provided his experiences working with stormwater pond projects in other municipalities he has worked in.
- Questioned if the drainage basin would create enough water flow to prevent stagnation in the pond. Vande Hey thought it would be likely.
- Ponds can be neighborhood amenities.

Lefebvre/Genrich moved to suspend the rules. Motion carried.

Chris Sampson, 2509 Pickard Cir.

- Question on the use of the softball diamond complex. Clark explained that he had provided a report to the Village Board on field usage at a meeting in January 2024. The fields are used four nights per week from May through July. In 2025 the Village also hosted a Midwest regional softball tournament at Riverview Park that brought in approximately 40 teams to Allouez and anticipates this to be an annual event.

Brian Kerhin, 3025 East River Dr.

- Does Pond Option 2 include the cost of relocation of a softball diamond? Yes
- Can parking be placed over the top of the gas line along Broadview Dr.? Yes, it should be allowable.

Kristoffer Engebretson, 336 Terraview Drive

- Is there infrastructure currently in place for Pond Option 1? Yes, piping was placed in 2005.
- Have costs increased for this project? They were updated in 2024.

Mary Orcutt, 2544 Meadow Breeze Court

- Lives in Ledgeview and is a member of the Allouez Girls Softball (AGS)
- The AGS organization has had positive communication with park neighbors since the last public meeting.
- Riverview is one of only a few five field complexes in the Green Bay area.

Lefebvre/Genrich moved to pick up the rules. Motion carried.

Lefebvre/Mathwig moved to recommend Pond Option 1 to the Village Board. Motion carried.

ADJOURNMENT

Genrich/Seidl moved to adjourn the joint meeting at 6:46pm. Motion carried.

Minutes submitted by Chris Clark and Sean Gehin

PUBLIC WORKS COMMITTEE MEETING
Wednesday, December 10th, 2025
Allouez Village Hall, 1900 Libal Street

CALL TO ORDER/ ROLL CALL

Chairperson Leiterman called the meeting to order at 6:50 p.m.

Present: Genrich, Lefebvre, Leiterman
Excused: Collison, Beyler

Also present: Sean Gehin, Jim March

MODIFY/ADOPT AGENDA

Genrich/Lefebvre moved to adopt the agenda as presented. Motion carried.

APPROVAL OF NOVEMBER 4, 2025 MINUTES

Lefebvre/Leiterman moved to approve the November 4, 2025 minutes. Motion carried.

ANNOUNCEMENTS

- None

PUBLIC APPEARANCES

- None

LIBAL STREET RESURFACING PROJECT

a. On-street Parking Analysis & b. Proposed Typical Section

S. Gehin:

- The design of the Libal Street resurfacing project from Lebrun Street to Hoffman Road has started.
- The proposed typical section will include travel, bike and parking lanes.
- Marking of bike lines will require removal of parking on one side of Libal St. (currently no parking restrictions on Libal St. from Lebrun St. to Hoffman Rd.)
- raSmith evaluated both sides of Libal Street to determine which side offers greater parking capacity along with other criteria (such as land use and churches).
- Overall westside (65) offers a few more stalls compared to the eastside (62).
- Redevelopment of the Langlade Elementary North of Hoffman Rd. may benefit from parking along the westside of the street.
- Recommend having the parking lane on the west side of Libal Street and eliminate parking on the east side of Libal Street.
- Approval of the proposed typical section was tabled until location of proposed curbed bump outs has been provided.

Discussion:

- How long will Langlade Elementary be open?
- It appears Lutheran Church across from Langlade Elementary as sufficient on-site parking.

Leiterman/Lefebvre moved to recommend to the Village Board having the parking lane on the west side of Libal Street. Motion carried.

RENEWAL OF HYDROCORP'S RESIDENTIAL CROSS CONNECTION CONTROL INSPECTION SERVICES AGREEMENT

S. Gehin:

- Have not yet received HydroCorp's inspection service agreement.
- Requested table item.

Leiterman/Genrich moved to Table item #7 to a future Public Works Committee meeting. Motion carried.

AMENDMENT TO CHAPTER 432, WASTE MANAGEMENT, OF THE VILLAGE OF ALLOUEZ MUNICIPAL CODE

S. Gehin:

- In general, the changes to the code are as follows:
 - Revised to coincide with the updated 2026 brush & bulk collection schedule
 - Reorganized to clearly define properties serviced by the Village and those serviced by a licensed private hauler
 - Granting placement of additional garbage and recycling carts. *Code limits residential placement to a single garbage and recycling cart*
- A future amendment to the code will be required in spring to address the following:
 - Recent DNR recycling rule revisions
 - Charge for the placement of additional carts at the curb
 - Village collection of non-residential properties

Lefebvre/Genrich moved to recommend to the Village Board Amendment to Chapter 432, Waste Management, of the Village of Allouez Municipal Code. Motion carried.

WATER RATE STUDY

S. Gehin:

- Provided an update on the water utility rate case- completed & submitted a conventional rate case for the village to the Public Service Commission (PSC) in November
 - o Proposed 10% rate increase
 - o Results in a \$4.00 increase to an average monthly bill
 - o PSC will ultimately determine rate increase
 - o Implementation of new rates expected mid 2026
 - o Last water rate case was implemented in January 2022
- Provided surrounding municipal water rates– Allouez is average for a monthly user charge
- Village Staff are currently compiling information on cost savings and impact to customers if the village were to move from monthly billing to quarterly billing

Discussion:

- How many customers pay electronically compared to payment by check?
- Why do we have different water rates (volume)?
- If Village moved to quarterly billing can the Village afford CBCWA water purchase?

FUTURE AGENDA ITEMS

- None

ADJOURNMENT

Lefebvre/Genrich moved to adjourn at 7:30 p.m. Motion carried.

VILLAGE OF ALLOUEZ

Allouez Village Hall • 1900 Libal Street • Green Bay, Wisconsin 54301-2453

Date: January 29, 2026

RESERVOIR ROOF REPLACEMENT AND OVERFLOW IMPROVEMENT PROJECT

The bid opening for the Reservoir Roof Replacement and Overflow Improvement Project was held on January 27th. Howard Immel Inc. provided the only bid for the project in the amount \$458,759.55. The bid tabulation is attached.

Immel's bid closely resembled the engineer estimate of \$454,000. Bonding secured last year to fund the project.

In general, work includes wall repair, replacement of the rectangular and circular reservoir roofs at the Vande Hei Road Pump Station and reconstruction of the overflows at both the Vande Hei Road at the Dauphin Street Pump Stations.

Weather permitting the project is anticipated to start in May. All work shall be completed by September 15th, 2026.

Suggested Motion:

A recommendation to the Village Board to accept Howard Immel Inc.'s Bid in the amount of \$458,759.55.

Sean J. Gehin, P.E.

VILLAGE OF ALLOUEZ CI WATERMAIN-WISLR MAP

Rating system

Surface rating	Visible distress*	General condition/ treatment measures
10 Excellent	None.	New construction.
9 Excellent	None.	Recent overlay. Like new.
8 Very Good	No longitudinal cracks except reflection of paving joints. Occasional transverse cracks, widely spaced (40' or greater). All cracks sealed or tight (open less than 1/4").	Recent sealcoat or new cold mix. Little or no maintenance required.
7 Good	Very slight or no raveling, surface shows some traffic wear. Longitudinal cracks (open 1/4") due to reflection or paving joints. Transverse cracks (open 1/4") spaced 10' or more apart, little or slight crack raveling. No patching or very few patches in excellent condition.	First signs of aging. Maintain with routine crack filling.
6 Good	Slight raveling (loss of fines) and traffic wear. Longitudinal cracks (open 1/4"–1/2"). Transverse cracks (open 1/4"–1/2"), some spaced less than 10'. First sign of block cracking. Slight to moderate flushing or polishing. Occasional patching in good condition.	Shows signs of aging. Sound structural condition. Could extend life with sealcoat.
5 Fair	Moderate to severe raveling (loss of fine and coarse aggregate). Longitudinal and transverse cracks (open 1/2" or more) show first signs of slight raveling and secondary cracks. First signs of longitudinal cracks near pavement edge. Block cracking up to 50% of surface. Extensive to severe flushing or polishing. Some patching or edge wedging in good condition.	Surface aging. Sound structural condition. Needs sealcoat or thin non-structural overlay (less than 2")
4 Fair	Severe surface raveling. Multiple longitudinal and transverse cracking with slight raveling. Longitudinal cracking in wheel path. Block cracking (over 50% of surface). Patching in fair condition. Slight rutting or distortions (1/2" deep or less).	Significant aging and first signs of need for strengthening. Would benefit from a structural overlay (2" or more).
3 Poor	Closely spaced longitudinal and transverse cracks often showing raveling and crack erosion. Severe block cracking. Some alligator cracking (less than 25% of surface). Patches in fair to poor condition. Moderate rutting or distortion (greater than 1/2" but less than 2" deep). Occasional potholes.	Needs patching and repair prior to major overlay. Milling and removal of deterioration extends the life of overlay.
2 Very Poor	Alligator cracking (over 25% of surface). Severe rutting or distortions (2" or more deep). Extensive patching in poor condition. Potholes.	Severe deterioration. Needs reconstruction with extensive base repair. Pulverization of old pavement is effective.
1 Failed	Severe distress with extensive loss of surface integrity.	Failed. Needs total reconstruction.

* Individual pavements will not have all of the types of distress listed for any particular rating. They may have only one or two types.

2026 Street Resurfacing Project

To preserve and prolong the life of Village asphalt streets, the Village resurfaces a handful of Streets on an annual basis. The intent of this item is to discuss and approve the streets to be resurfaced this year.

This year's proposed street resurfacing project includes the following street segments:

- Ravine Way – Simonet St. to Greene Ave.
- River Lane – W. Lazarre St. to the Cul-De-Sac
- E. Dauphin St. – Libal St. to East River Dr.
- E. Dauphin St. – East River Dr. to the Cul-De-Sac
- Brookridge St. – Libal St. to East River Dr.
- Brookridge St. – East River Dr. to the Cul-De-Sac

Similar to past projects, alternates street segments will be bid in the event the Village receives favorable bid prices.

- Bid Alternate No. 1 – Capri Ct.
- Bid Alternate No. 2 – Cameo Ct.

The 5-yr Capital Improvement Plan (CIP) has been updated to reflect this year's proposed Street Resurfacing Project.

In addition to asphalt paving, the project includes spot repair of defective curb and sidewalk, repair to storm and sanitary sewer and landscape restoration.

The funding for the street resurfacing project is supported primarily by the Public Work's paving (\$500,000) and street repair (\$50,000) budgets, however a portion of the project cost is allocated to other public works and utility budgeted activities.

Suggested Motion

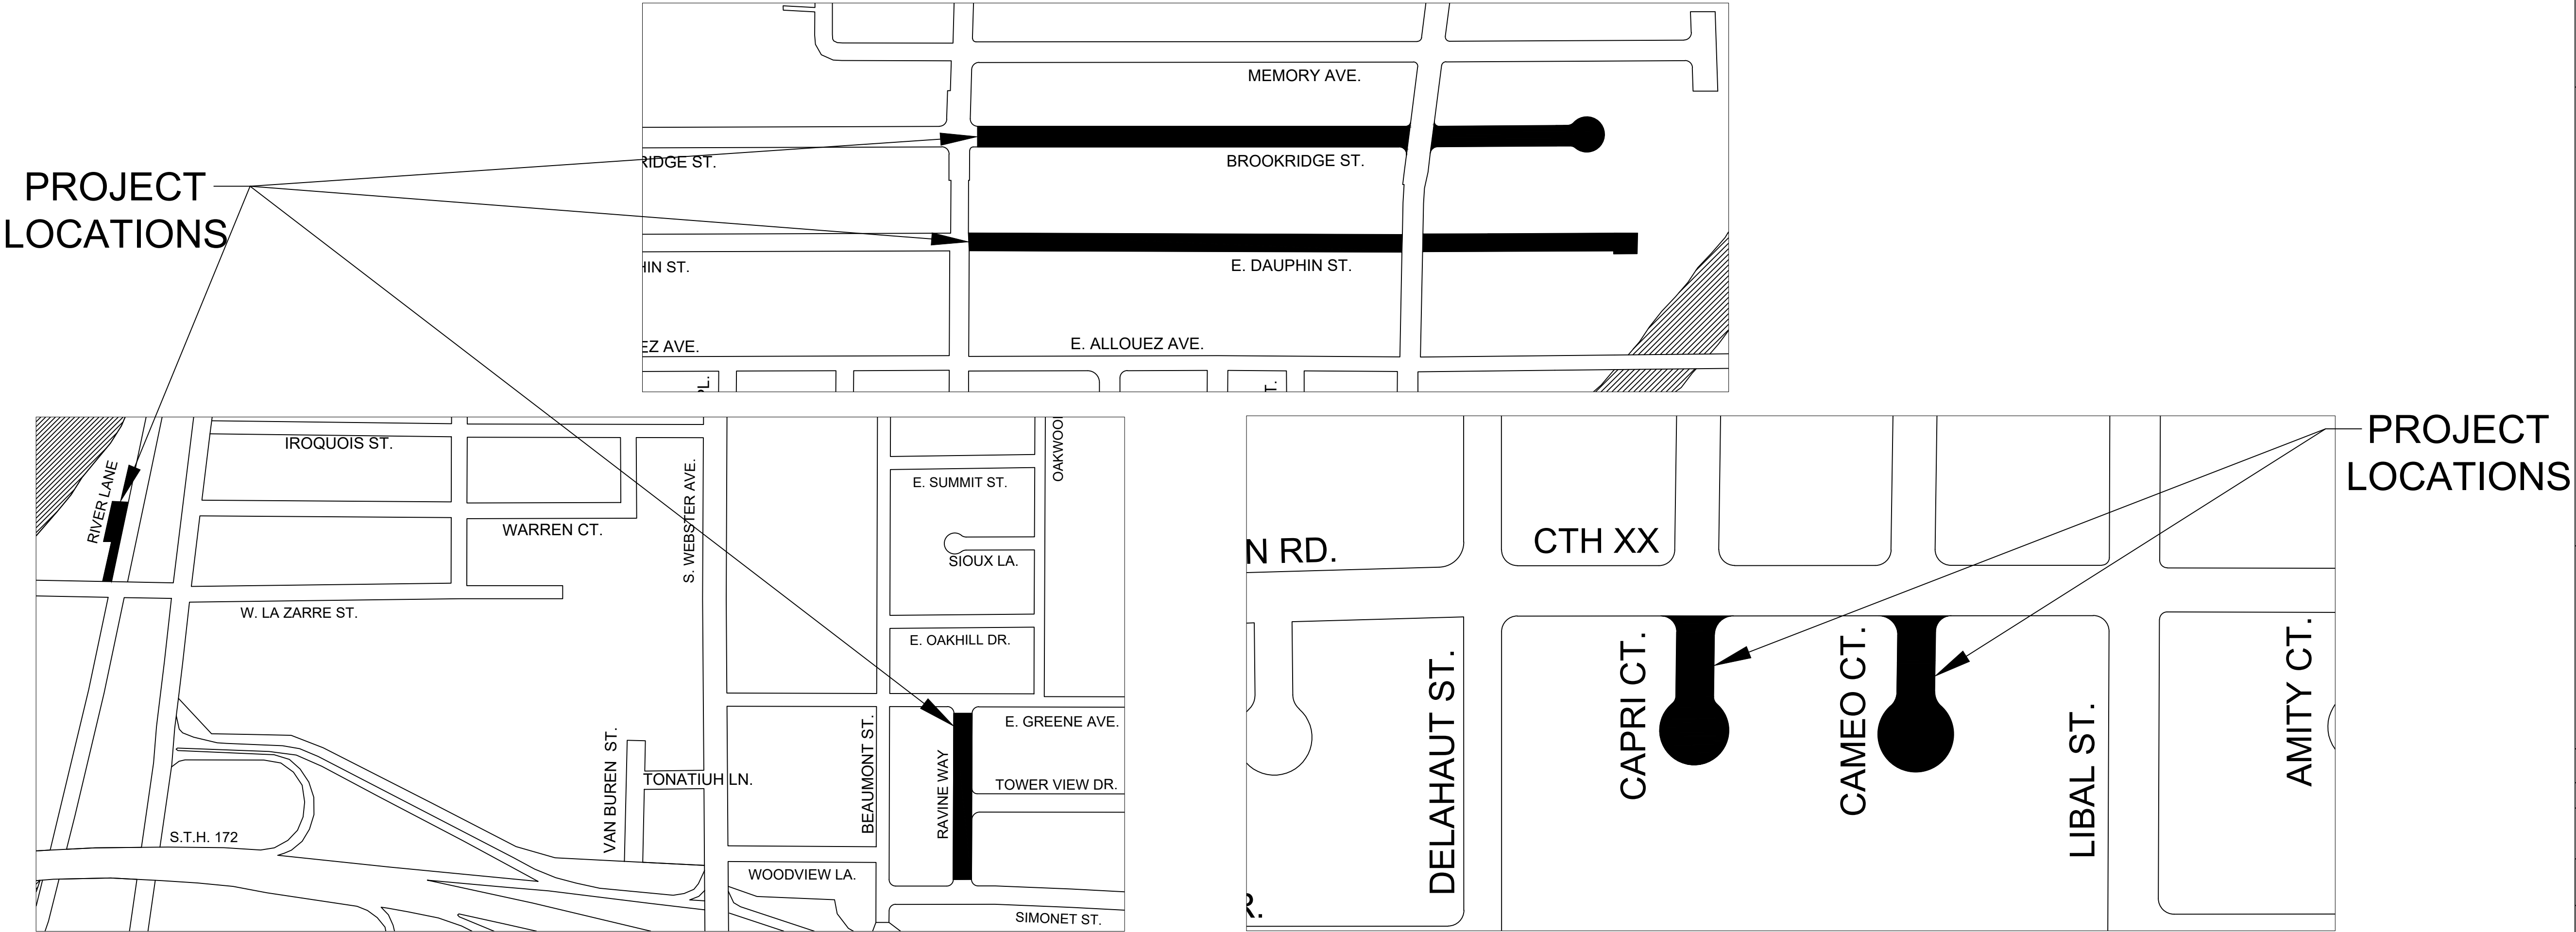

A recommendation to the Village Board to approve the street segments as proposed for this year's Street Resurfacing project.

LIBAL STREET PROPOSED TYPICAL SECTION

The preliminary design for the Libal Street resurfacing project has started.

The street maintenance project will include:

- Mill and resurfacing of the existing pavement
- Spot repair of defective curb and gutter and sidewalk
- Correction of storm sewer deficiencies
- Improvement to existing pedestrian and bike accommodations:
 - Upgrading of curb ramps to ADA standards
 - **New sidewalk** along the **east side** of Libal St. from **LeBrun St. to Longview Ave**
 - **Addition of marked bike lanes.** Parking on the east side of the street will be eliminated to accommodate the marked bike lanes.
 - **Curb Bump-Ins** at School Crossings:
 - **Longview Ave.**
 - **Hilltop Dr.**

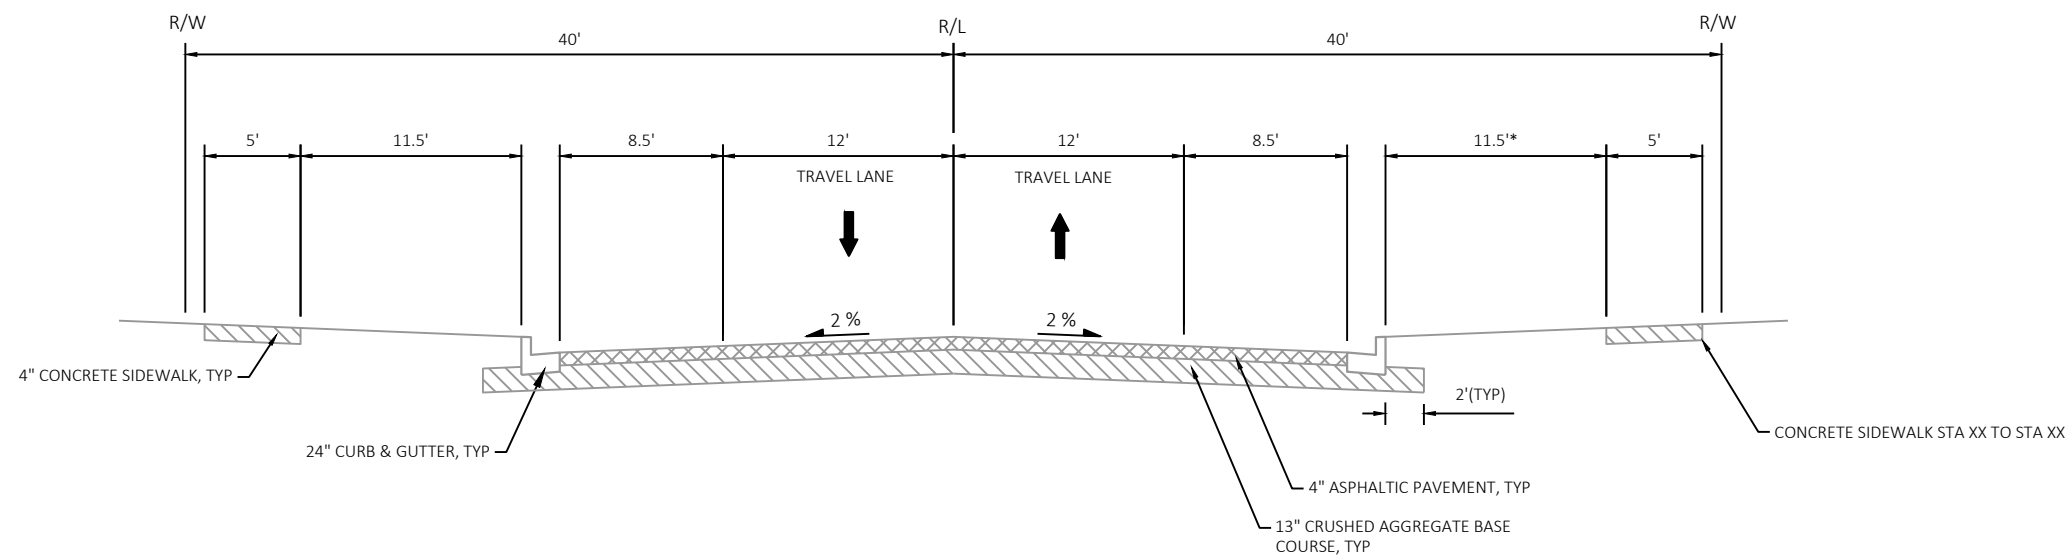

Attached is the proposed typical section of Libal Street from LeBrun St. to Hoffman Rd. (CTH XX).

At the completion of the preliminary plans, an in-person open-house meeting with plans on display will be provided.

Suggested Motion:

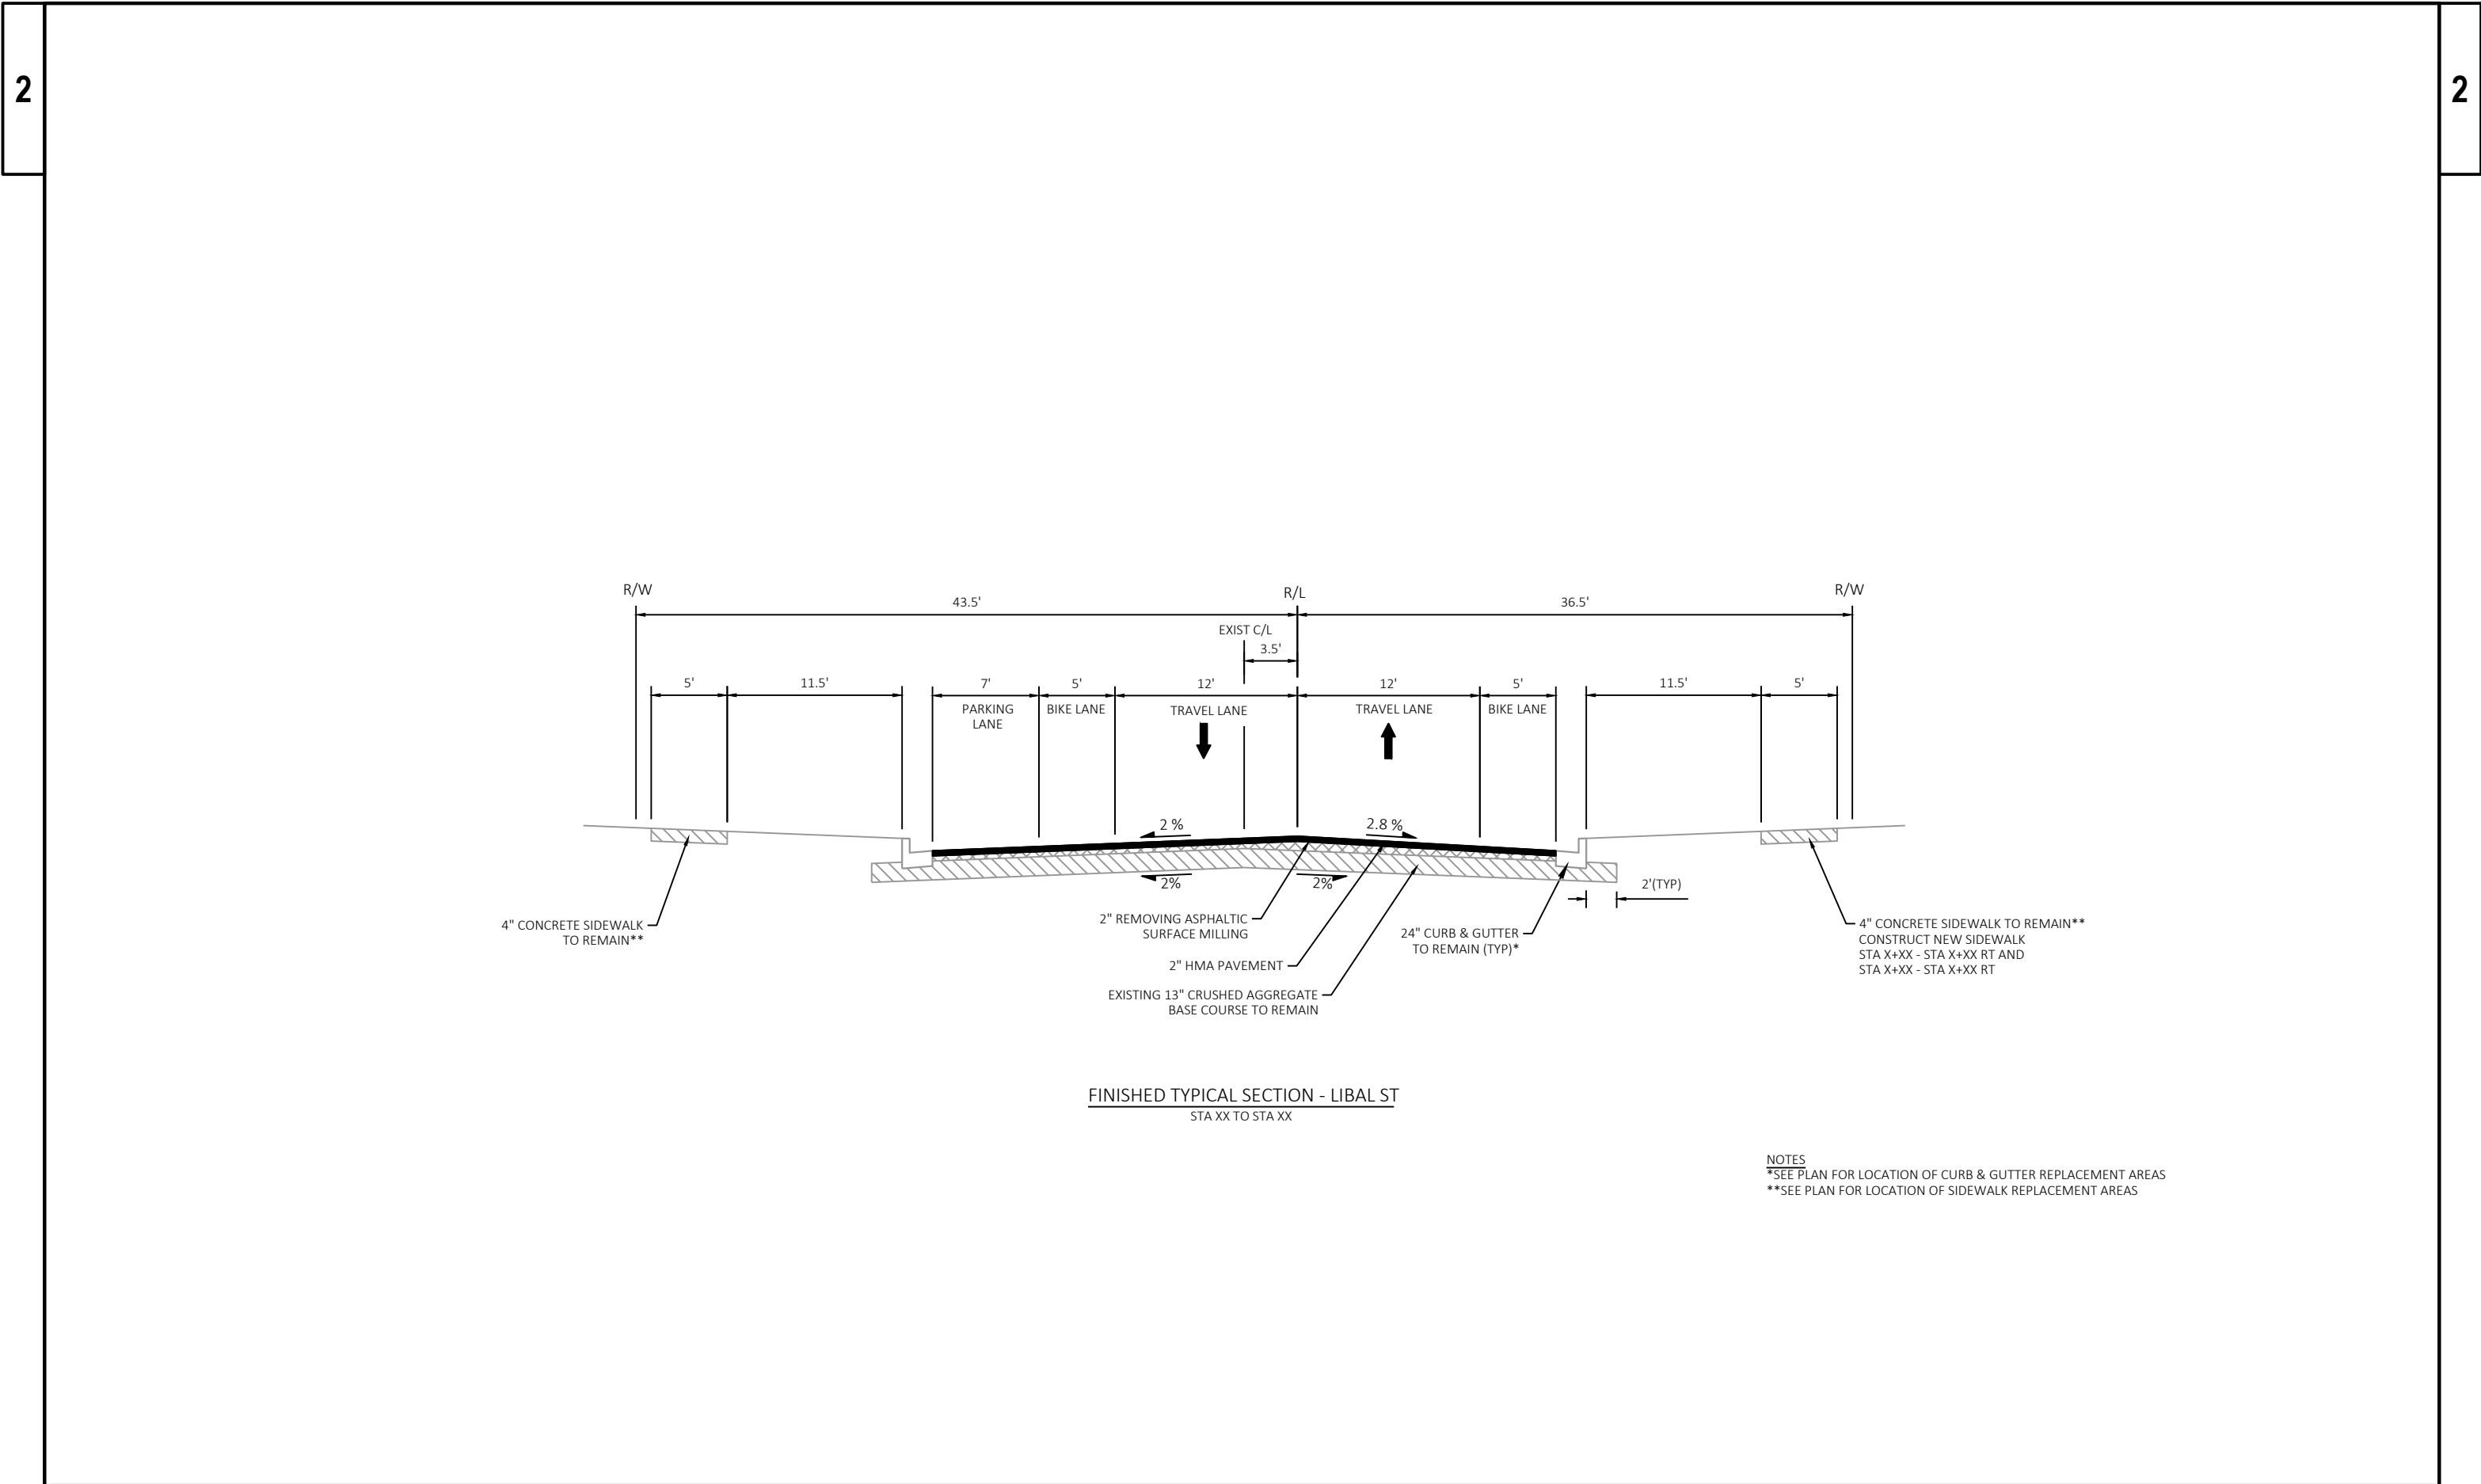

A recommendation to the Village Board to approve the proposed finished typical section.

Sean J. Gehin, P.E.

February 02, 2026

2026 PUBLIC WORKS DEPARTMENT PROPOSED EQUIPMENT PURCHASES

The Public Works Department is proposing the following equipment purchases in 2026:

2026 - 2034					
Budget Year	Depart		Est. Replacement		Comments
			Cost	Life	
2026	Street	Street Sweeper	\$355,000	15 yrs	Quoted government pricing minus trade in value is \$349,165.00
	Street	Sno-Quip 61" Ribbon snow blower	\$36,977	15 yrs	Sourcewell quoted price with telescopic scope is \$26,318.96
	Shop	2026 Ford F-150 4WD Reg. Cab Pick-Up Truck	\$45,000	10-15 yrs	Verdomet quoted pricing with light bar is \$43,998.50
	Engineering	2026 Ford F-150 2WD Super Cab Pick-Up Truck	\$48,000	10-15 yrs	Verdomet quoted pricing with accessories is \$47,312.45
	Water	2026 Ford F-150 4WD Reg. Cab Pick-Up Truck	\$45,000	10-15 yrs	Verdomet quoted pricing with accessories is \$46,308.50

Staff reports for above equipment purchases are attached. The purchase of the street sweeper was bonded for in 2025. Remaining equipment purchases are funded by Equipment Replacement Fund and/or Water Utility.

Purchases were accounted for in this year's Budget.

2026 Tymco Street Sweeper

The Street Department is looking to replace their Tymco 600 sweeper. The current sweeper that they use has been very dependable. They are looking to stay with what has been working and purchase another Tymco. Continuation of use with the existing sweeper would require repairs be made to the pickup head and to the debris body due to corrosion and wear.

Street sweeping is essential for prolonging roadway life and keeping stormwater systems free from debris. The Villages equipment replacement plan has the service life of this unit at 15 years. The Villages current street sweeper is a 2011. The Villages 5-year equipment replacement plan includes the purchase of a new sweeper at an estimated cost of 355,000.

It is the opinion of the staff that the village replaces the current sweeper with another Tymco 600. Environmental Equipment will give us 30,000 for our current sweeper, which we feel is a fair price in the condition it is in. With that trade in value and government pricing our cost would be below the anticipated cost of 355,000.

2026 Tymco 600

Tymco 600	\$379,165.00
Trade in value	<u>\$30,000.00</u>

Total	\$349,165.00

60" Sierra Ribbon Snow Blower

The street department is currently looking at a more efficient way for the removal of snow on the Webster Avenue sidewalks. We have determined that the current snow blower used in our fleet is ineffective due to the many challenges along the walk (Hwy 172-bridge deck, deteriorating rock retaining walls, fencing, uneven concrete slabs, and the volume of snow placed on the walk).

We have determined that the clearing of larger snow events from the sidewalk would be more effective from the roadway. In doing so, a larger tractor mounted snow blower with truck loading chute is necessary.

As such the Street Department is proposing to purchase a 60" Ribbon Snow Blower with a truck loading chute.

60" Ribbon Snow Blower with Truck Loading Chute.

2026 Mechanic/Shop Truck Purchase

The village's shop is looking to upgrade their 2016 F-150 pick-up truck. They are looking at a 2026 Ford F-150. Some of the tools and equipment that the F-150 will be carrying include a set of hand tools to do minor repairs out on the street, a creeper, safety equipment such as cones, PPE for the mechanic. We will be repurposing a toolbox to go in the bed of the truck along with safety amber lights.

The Village's equipment replacement plan has this truck being replaced at 10 years. The existing truck is 10 years old. The existing truck will be repurposed to the street dept. and is anticipated to be in their fleet for another 8-10 years. Repurposing of truck will require installation of a light bar of which is included in purchase.

It is the opinion of staff that a regular cab with an 8' box will best suit their needs. The truck will be equipped with a toolbox to keep their tools out of the weather and locked. There will be a spray in bed liner to protect the truck bed and to keep the tools from sliding around.

Truck Equipment, Inc. Estimate Disclaimer

This estimate is provided as a good-faith assessment of anticipated costs based on the information available at the time of its creation. Actual costs may vary due to unforeseen factors, changes in scope, market fluctuations, or other circumstances beyond our control. Additional charges may apply for any modifications or extra work required outside the original estimate. Prices and availability are subject to change. Please review this estimate carefully and let us know if you have any questions. Approval of this estimate indicates acceptance of potential variations.

Truck Equipment, Inc. Warranty Claims

Any warranty work performed for Truck Equipment Inc. must have prior written authorization in the form of a signed purchase order. The purchase order number must appear on all invoices submitted for payment. All parts will be subject to the manufacturers written warranty procedures. In all cases, all parts must be returned to Truck Equipment, Inc. to be submitted to the manufacturer for warranty consideration. Truck Equipment, Inc. reserves the right to specify the time and location where warranty work will be performed.

NOTICE – In order to continue providing the best customer service and lowest possible prices a 3% convenience fee will be added to all credit card transactions. This charge is equal to our cost of acceptance. Thank you for your understanding. We continue to accept cash or checks with no additional fees.

Department of Public Works

February 3rd, 2026

2026 Engineering Truck Purchase

The Engineering Dept. is looking to add a pick-up truck to their department. They are looking to purchase a 2026 F-150 SuperCab. The vehicle will be used for engineering and inspection purposes. Some of the tools and equipment that the truck will be carrying include survey equipment, stakes, tapes, shovels/picks, paint, ribbon, and temporary traffic control devices.

The Village's equipment replacement plan includes the purchase of this truck in 2026. It will have a useful life span of 10-15 years.

It is the opinion of staff that a full-size truck with an extended cab and 6.5' box is best suited for engineering and inspection needs. The truck will have a double stack bed slide for all supplies needed for in the field, like paint, stakes, levels, shovels, rakes, etc. The truck will also be equipped with a cap that has full length side windows for easy access for frequently used tools. The weather resistant cap will also protect supplies from the elements. The extended cab will provide more space for more sensitive equipment like maps, plans and laptops. The truck will also be equipped with a 48" light bar with an 8-button control panel.

2026 Engineering Dept. Ford F-150

Truck Equipment, Inc. Estimate Disclaimer

This estimate is provided as a good-faith assessment of anticipated costs based on the information available at the time of its creation. Actual costs may vary due to unforeseen factors, changes in scope, market fluctuations, or other circumstances beyond our control. Additional charges may apply for any modifications or extra work required outside the original estimate. Prices and availability are subject to change. Please review this estimate carefully and let us know if you have any questions. Approval of this estimate indicates acceptance of potential variations.

Truck Equipment, Inc. Warranty Claims

Any warranty work performed for Truck Equipment Inc. must have prior written authorization in the form of a signed purchase order. The purchase order number must appear on all invoices submitted for payment. All parts will be subject to the manufacturers written warranty procedures. In all cases, all parts must be returned to Truck Equipment, Inc. to be submitted to the manufacturer for warranty consideration. Truck Equipment, Inc. reserves the right to specify the time and location where warranty work will be performed.

NOTICE – In order to continue providing the best customer service and lowest possible prices a 3% convenience fee will be added to all credit card transactions. This charge is equal to our cost of acceptance. Thank you for your understanding. We continue to accept cash or checks with no additional fees.

VILLAGE OF ALLOUEZ

Phone No.: (920) 448-2800 • Fax No.: (920) 448-2850

Department of Public Works

February 3rd, 2026

2026 Water Utility Truck Purchase

The Water utility Dept. is looking to upgrade their 2012 Dodge pick-up truck. They are looking to purchase a 2026 Ford F-150. Some of the tools and Equipment that the F-150 will be carrying include locating devices, valve keys, valve wrenches, shovels, paints, hydrant tools, misc. repair parts and safety roadside equipment such as cones and barricades.

The Village's equipment replacement plan has this truck being replaced at 10-15 years. The existing truck is 14 years old. The truck will be sold.

It is the opinion of staff that a regular cab with an 8' box will best suit their needs. The truck will be equipped with a toolbox on both sides of the truck to keep their tools out of the weather and locked. There will be a spray in bed liner to protect the truck bed and to keep the tools from sliding around. The truck will also be equipped with a 48" light bar with an 8-button control panel.

2026 Water Dept. Ford F-150

Ewald Automotive Group (Vendornet)

2026 Ford F-150 4WD Ref Cab 8' Box

Truck Equipment, Inc. Estimate Disclaimer

This estimate is provided as a good-faith assessment of anticipated costs based on the information available at the time of its creation. Actual costs may vary due to unforeseen factors, changes in scope, market fluctuations, or other circumstances beyond our control. Additional charges may apply for any modifications or extra work required outside the original estimate. Prices and availability are subject to change. Please review this estimate carefully and let us know if you have any questions. Approval of this estimate indicates acceptance of potential variations.

Truck Equipment, Inc. Warranty Claims

Any warranty work performed for Truck Equipment Inc. must have prior written authorization in the form of a signed purchase order. The purchase order number must appear on all invoices submitted for payment. All parts will be subject to the manufacturers written warranty procedures. In all cases, all parts must be returned to Truck Equipment, Inc. to be submitted to the manufacturer for warranty consideration. Truck Equipment, Inc. reserves the right to specify the time and location where warranty work will be performed.

NOTICE – In order to continue providing the best customer service and lowest possible prices a 3% convenience fee will be added to all credit card transactions. This charge is equal to our cost of acceptance. Thank you for your understanding. We continue to accept cash or checks with no additional fees.
