

National Public Works Week, May 17th – 23rd

Public Works Week is celebrated nationally during the third week in May each year to honor all of the hard working and dedicated employees who work in the Public Works profession.

The Village of Allouez would like to recognize our Public Works, Parks Department, & Administrative Staff that keep the village clean and safe for residents. Team members provide and maintain the infrastructure and services many of us take for granted - water, sewer, storm drainage, design engineering, solid waste collection, construction management, transportation and traffic control, brush collection, leaf pickup in the spring and fall, tree removal, trimming and planting, maintaining the playgrounds, parks and athletic fields, they are a big part of emergency management and the first responders when help is needed, and so much more.
